

TLC Top Tips to help your child's communication.

Get down to your
child's level so they
can see your face
when you speak.

Comment on what
your child is doing
as this will help them
learn new words.

Use gestures when you
are talking as this will
give your child extra clues
to help them understand
what you are saying.

Repeat back what your
child says to model
language and let them
know you are listening.
